

REQUEST FOR PROPOSALS

SATURNA ISLAND FIRE PROTECTION SOCIETY

Saturna Island contractors are invited to bid for the supply and installation of a new poly-tank for rainwater collection at Emergency Services Building #1.

The work entails; supply of one additional poly-tank, the same size and capacity as the two existing units, a Premier Plastics Ltd. model #4160, or equivalent. Preparation of the site to adequately hold and support the new tank in close proximity to the two existing units. To provide materials, supplies and qualified installer(s) to connect the new tank to in and above ground plumbing of the two existing tanks for filling, discharge and overflow redirection, complete with valves and boxes. Then covering any exposed in ground plumbing with chipped wood material to a maximum depth without obscuring valve boxes.

Please reply in writing by October 31, direct questions and proposals to John Wiznuk, SIFPS Asset and Management Committee, jwiznuk@yahoo.ca, 250 539 2256.
